

300+ Most Useful Websites on the Internet (2023)

 technastic.com/most-useful-websites-on-internet/

By Rakesh

Websites like these are why the Internet is amazing. If you're looking for some new websites to check out, this list is a great place to start. You can find websites for almost anything you're interested in, whether it's learning about a new topic, keeping up with the news, or finding a new hobby. There's no shortage of possibilities, so you're sure to find something that interests you. And, who knows? You might just find your new favorite website.

List of the Most Useful Websites

Let's start with our well-chosen list of the most amazing websites on the Internet. To save time, for now, I haven't classified the websites into categories and so they have been listed in alphabetical order. Whether you are a student, an office worker, a content creator, a curious reader, or someone looking for a website to kill time and cure your boredom, you'll find our well-researched list of the most useful websites and web apps interesting.

1. **10Minute Mail**: Create a temporary email address. This is very useful if you want to keep your real inbox safe from spam. If you want to sign up for a website or service, you can use this disposable mail address for email verification. You can also try guerrillamail.com, temp-mail.org, or sharklasers.com which provide the same service.
2. **29a.ch**: This website offers a variety of web browser tools such as TimeStretch Player, Analog Film Emulator, Forensically, Neon Flames, etc. Using these interactive mesmerizing tools, you can relax your mind and have fun.
3. **750 Words**: Writing is a good habit. Using this website, you can inculcate the habit by starting each morning with 750 words or 3 pages of spontaneous writing to clear away the mental clutter. It's a great way to start your day with a fresh mind.
4. **7Cups**: Despite the fact that we are all surrounded by people, most of us feel isolated and alone, especially in bad times like depression, anxiety, and problematic relationships. There are times when we wish to talk to someone and seek emotional and mental support but find no one around. 7Cups provides a platform where we can anonymously chat with caring listeners.
5. **Adioma**: Make impressive infographics with an overwhelming set of icons and templates at your disposal.
6. **Adobe Color**: Get ideas for colors and color codes, and also extract colors from photographs.
7. **Adobe Express**: It's a one-stop hub for editing images, making stunning video presentations, and editing PDF files.
8. **Aeon.co**: Read highly informative articles written by renowned professors, researchers, and experts on topics like sciences, philosophy, history, arts, nature, and more. You'll find these articles not only interesting by eye-opening as well.

9. **Agar.io**: It's a multiplayer online action game that can be played in a web browser.
10. **A Good Movie to Watch**: Looking for something good to watch? This website is full of meticulously picked highly-rated and less-known movies and shows. The list of recommended movies is updated regularly so you always find something new to watch.
11. **AI Image Enlarger**: If you have a low-quality photo with low resolution, this website will help you increase image resolution without losing quality and enhance it. The website has a bunch of more image-editing tools like AI Anime16K, AI Image Upscaler, AI Enhancer, AI Sharpener, Magic Eraser, AI Cartoonizer, AI Face Retouch, AI BG Remover, AI Denoiser, and AI Photo Colorizer. Don't forget to check them out too.
12. **AI Pickup Lines**: If you want to impress your girlfriend or friends with fun, quirky, clever, and punny pickup lines, this site is the best place to visit.
13. **Alternativeto**: Looking for an alternative to a costly program or software? Just type the name of the software in the search box and you'll find the alternatives to that software that support your operating system and suit your pocket. You should also try [alternative.me](https://www.alternativeto.com).
